"IT'S ALL ABOUT
THE RIGHT TOOL FOR THE JOB."

"I love my BCS! Believe it or not, it does the little jobs better than my Kioti RX7320 can. It's all about the right tool for the job. A big machine and a small machine both have their place, and together, they compliment each other very well!" - Brian in WA

The Breath of Life

"If we claim to have fellowship with him and yet walk in the darkness, we lie and do not live out the truth. But if we walk in the light, as he is in the light, we have fellowship with one another, and the blood of Jesus, his Son, purifies us from all sin. If we claim to be without sin, we deceive ourselves and the truth is not in us. If we confess our sins, he is faithful and just and will forgive us our sins and purify us from all unrighteousness. If we claim we have not sinned, we make him out to be a liar and his word is not in us."

A bright red colored egg is a symbol of Easter in Bulgaria. Traditionally, the eggs are colored on the Thursday before Easter after the church services.

The Easter bonnet started out as a wreath of flowers or leaves the circle is an expression of the roundness of the sun and its travel through the heavens which brought it back for the return of spring.

Why Native Plants for Your Lawn?

Native plants are those that were growing in an area before the European settlers arrived. They've lived here for hundreds or thousands of years and are well-adapted to whatever the local climate throws at them. American native grasses, like all native plants, offer several benefits:

- **Reduce soil erosion-** by having deeper anchoring root systems
- **Capture sediment-** being carried by water and wind
- **Improve water quality-** by filtering chemicals and impurities from water before it flows into creeks and rivers
- **Provide wildlife habitat-** and attract birds that use them as nesting places.
- **Drought tolerant-** with their ability to consume less water
- **Most are perennials-** requiring less maintenance
- **More resistant to pests and diseases-** which means less need for pesticides.

In fact, everyone who wants to live a godly life in Christ Jesus will be persecuted, while evildoers and impostors will go from bad to worse, deceiving and being deceived. But as for you, continue in what you have learned and have become convinced of, because you know those from whom you learned it, and how from infancy you have known the Holy Scriptures, which are able to make you wise for salvation through faith in Christ Jesus. All Scripture is God-breathed and is useful for teaching, rebuking, correcting and training in righteousness, so that the servant of God may be thoroughly equipped for every good work.

PSALM 139: 13 - 18

For you created my inmost being; you knit me together in my mother's womb. I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well. My frame was not hidden from you when I was made in the secret place, when I was woven together in the depths of the earth. Your eyes saw my unformed body; all the days ordained for me were written in your book before one of them came to be.

How precious to me are your thoughts, God! How vast is the sum of them! Were I to count them, they would outnumber the grains of sand - when I awake, I am still with you.

Protecting Your Finances

If it sounds too good to be true... well, you know how the saying goes, right? This is especially true when it comes to investments. If you receive a pitch by phone, mail or e-mail that makes incredible financial promises such as high returns with a low risk, you might ask yourself, "How is this possible?" In most cases, it's not.

Postal Inspectors say investment opportunities or "get rich quick" schemes are a favorite of fraudsters. Whether they sell bogus securities or commodities, oil wells or gold coins, these fraudulent promoters try to get you to invest your money - and lots of it.

Older Americans are prime targets because they possess most of the nation's individual wealth. Every year, thousands lose between a few dollars and their life savings to fraudsters. Even the most experienced investors can be caught up in a good investment scam.

So how do you protect yourself from these investment fraudsters who want your money? Take your time deciding to invest - don't rush into accepting these "high profit, low risk" offers. Get all information in writing before you consider investing. Check out the firm by calling the Better Business Bureau, state Attorney General or consumer protection agency. For more info on scams, visit USPIS.gov.

2 CORINTHIANS 2: 14 - 17

But thanks be to God, who always leads us as captives in Christ's triumphal procession and uses us to spread the aroma of the knowledge of him everywhere. For we are to God the pleasing aroma of Christ among those who are being saved and those who are perishing. To the one we are an aroma that brings death; to the other, an aroma that brings life. And who is equal to such a task? Unlike so many, we do not peddle the word of God for profit. On the contrary, in Christ we speak before God with sincerity, as those sent from God.

Dear Friends: God love you and I feel led to share some thoughts with you about Jesus. Jesus paid the greatest price on Calvary's cross, and opened the door to a life with no end. Jesus brought life, Satan brought death. If the death angle knocks at your door today, is your heart fixed on God? Jesus said, "If you love me keep my commandments." I've worked for Jesus most of my life. Jesus Christ is everything, nothing can replace Him in our lives. May God bless everyone that reads this. - Evangelist Lincoln Sanders 931-304-6319.

Research Scientists Discover New Element

A major research institution has recently announced the discovery of the heaviest element yet known to science. The new element has been named Governmentium. Governmentium (Gv on the Periodic Table of Elements) has one neutron, 25 assistant neutrons, 88 deputy neutrons, and 198 assistant deputy neutrons, giving it an atomic mass of 312.

These 312 particles are held together by forces called morons, which are surrounded by vast quantities of lepton-like particles called peons. Since Governmentium has no electrons, it is inert; however, it can be detected, because it impedes every reaction with which it comes into contact. A minute amount of Governmentium can cause a reaction that would normally take less than a second to take over four days to complete.

Governmentium has a normal half-life of 4 years; it does not decay, but instead undergoes a reorganization in which a portion of the assistant neutrons and deputy neutrons exchange places. In fact, Governmentium's mass will actually increase over time, since each reorganization causes more morons to become neutrons, forming isodopes.

This characterization or moron promotion leads some scientists to believe that Governmentium is formed whenever morons reach a critical concentration. This hypothetical quantity is referred to as critical morass. When catalyzed with money, Governmentium becomes Administratium, an element that radiates just as much energy as Governmentium, since it has half as many peons, but twice as many morons.

When I Am Old

When I'm an old lady, I'll live with each kid,
 And bring so much happiness just as they did.
 I want to pay back all the joy they've provided.
 Returning each deed! Oh, they'll be so excited!
 When I'm an old lady and live with my kids.
 I'll write on the walls with reds, whites and blues,
 And I'll bounce on the furniture wearing my shoes.
 'll drink from the carton and then leave it out.
 I'll stuff all the toilets and oh, how they'll shout!
 When I'm an old lady and live with my kids.
 When they're on the phone and just out of reach,
 I'll get into things like sugar and bleach.
 Oh, they'll snap their fingers and then shake their head,
 When I'm an old lady and live with my kids.
 When they cook dinner and call me to eat,
 I'll not eat my green beans or salad or meat,
 I'll gag on my okra, spill milk on the table,
 And when they get angry I'll run if I'm able!
 When I'm an old lady and live with my kids.
 I'll sit close to the TV, through channels I'll click,
 I'll cross both eyes just to see if they stick.
 I'll take off my socks and throw one away,
 And play in the mud 'til the end of the day!
 When I'm an old lady and live with my kids.
 And later in bed, I'll lay back and sigh,
 I'll thank God in prayer and then close my eyes.
 My kids will look down with a smile slowly creeping,
 And say with a groan, "She's so sweet when she's sleeping!"

Prior to the creation of the "A.D." designation, Roman calendar years were followed by A.U.C., from the Latin *ab urbe condita*, "from the founding of the city."

How To Reduce Food Waste At Home

by Dr. Jean Buzby

(NAPS)—Here's a cool idea: A clean, well-organized refrigerator can help your family prevent food waste.

Three Ways To Fight Food Waste

1. Know and, if necessary, reorganize your fridge and pantry. Keep your refrigerator and pantry clean and organized so you can see what needs to be eaten first. If fresh food is "out of sight, out of mind," it may be forgotten until it's no longer fresh and so ultimately wasted. Food is less likely to go bad when you use the more perishable and older items first.

Also, storing food in clear containers can help you see what you have available in your fridge and pantry and can help you avoid buying food you already have.

In the fridge, extend the life of your food by putting it in the right place. For example, the temperature in the refrigerator door fluctuates more than the cabinets or the back of the unit so don't store such perishable foods as milk in the door.

2. Download the FoodKeeper App. The USDA, the Food Marketing Institute, and Cornell University jointly created FoodKeeper, which is available free at the Google Play or iTunes stores, or via desktop at www.usda.gov/foodlossandwaste.

FoodKeeper provides guidance on safe handling, preparation, and storage of more than 650 foods and beverages. With the app, you can track storage times for different foods, see cooking tips, watch helpful videos, and get information on food recalls. Users can also set up calendar reminders for when products are nearing their recommended storage date.

3. Love your leftovers. Give leftovers a makeover when you reuse them in rec-

Keep your refrigerator well organized and it can help you keep your health and wealth.

ipes. Add broccoli stems to a salad or omelet or blend overripe fruit and peels into a low-fat smoothie. My favorite all-time smoothie was made from about-to-expire chocolate yogurt and wilting blueberries and raspberries. Make broth from vegetable and/or meat trimmings, and freeze what you don't plan to eat right away.

Be creative while keeping leftover safety in mind. If you cook often and typically have loads of leftovers, consider having one dinner a week designated as Leftover Night.

Many foods can also be safely frozen indefinitely, so if you can't use something perishable before it may spoil, pop it in the freezer. Check the FoodKeeper app to see if your item may be frozen.

Mindfulness about food and food waste prevention in general can also help save you time and money. USDA estimates that each year at the consumer level, around \$1,500 of food goes uneaten per family of four. Imagine what your family could do with that kind of money.

Warm and Wonderful Pastrami-Spiced Veal Burgers

(NAPS)—Whether you're feeding your family or entertaining guests, a delightful way to keep things cosy yet special during the cold weather season is with a delicious dish such as this one, made with Trusted Veal from Europe.

Co-funded by the European Union

Pastrami-Spiced Veal Burgers
 Yield: 6 servings

Pastrami-spiced veal burgers can be a great way to greet friends and family on a cold day.

- 12 slices Smoked Gouda, sliced thinly
- 2 cups Sauerkraut, rinsed and drained
- ¾ cup Mayonnaise
- 1 oz Fresh breadcrumbs
- 4 oz Milk
- 2 tsp Salt
- 2 lbs Ground veal
- 2 tsp Black peppercorns
- 2 tsp Coriander seeds
- ½ tsp Mustard seeds
- 1 tsp Sweet paprika
- 1 tsp Onion powder
- ½ tsp Garlic powder
- 1 tsp Brown sugar
- ½ cup Whole grain mustard

Place the breadcrumbs, milk, and salt in a bowl and soak the breadcrumbs until softened. Mix the veal with the breadcrumb mixture and combine to form six patties. Toast the peppercorns, coriander, and mustard seeds in a dry pan. Let cool and grind them with the paprika, onion powder, garlic powder, and brown sugar. Coat the burgers with the spice mixture. Heat a grill on medium-high heat. Grill the burgers to desired doneness but at least 71°C (160°F) for food safety, adding a slice or two of cheese to each burger towards the end, to slightly melt. Spread the bottom of the bun with the mayonnaise, and top with whole grain mustard. Place the burger on the bottom, top with sauerkraut, and top with the bun.

As easy to make as they are enjoyable to eat, one reason these burgers are better is that they're made with

genuine European veal. Desired for its light color and delicate taste and texture, European veal has long been held

in high regard among chefs around the world. What's more, European Union (EU) Legislation means high animal welfare standards are practised and enforced so consumers worldwide can feel confident about Trusted Veal from Europe,

considered simply the best in taste and tradition.

Fortunately, a wide selection of high-quality European veal is available throughout Canada. Ask your local retailer for European veal.

More Ways to Keep Cosy

In addition to cooking a comforting meal, there are other ways to keep your spirits up when the thermometer falls.

1. Exercise your option to keep moving. Try hot yoga. Or embrace the cold and go out and ski, skate or build a snowman. You'll warm up while you're out and appreciate the heat indoors even more.

2. Love a lamp. If the dark days get you down, an LED full-spectrum light may cheer you up as well as warm you up.

1 CORINTHIANS 13: 4 - 9, 13

Love is patient, love is kind. It does not envy, it does not boast, it is not proud. It does not dishonor others, it is not self-seeking, it is not easily angered, it keeps no record of wrongs. Love does not delight in evil but rejoices with the truth. It always protects, always trusts, always hopes, always perseveres. Love never fails. But where there are prophecies, they will cease; where there are tongues, they will be stilled; where there is knowledge, it will pass away. For we know in part and we prophesy in part, but when completeness comes, what is in part disappears... And now these three remain: faith, hope and love. But the greatest of these is love.

Great American Cleanup by Lisa Luck

Keep America Beautiful's (KAB) Great American Cleanup kicks off March 19, the first day of spring and continues through June 20, 2024, the first day of summer. According to their website, "The Great American Cleanup, the nation's largest community improvement program, creates positive change and lasting impact in local communities." This activity encourages residents to get involved and help clean up litter that has accumulated over winter months. February and March are particularly unsightly, as the weather frequently prevents regularly scheduled cleanups from happening.

Keep Tennessee Beautiful's (KTnB) Great American Cleanup kicked off March 1 and also continues through June 20, 2022. Their mission is, "Educating and inspiring Tennesseans to take action every day to improve and beautify their community environment." Although registration for this event is not necessary to participate, your online registration will help KTnB track the number of volunteers that participate and the number of pounds of litter that are collected. Tennessee is one of the most beautiful states in the U.S. Unfortunately, the beauty is marred by litter. Litter can be seen along every road and waterway.

The Great American Cleanup event is not just limited to cleaning litter. Other projects beautify communities through planting flowers and trees, removing graffiti, improving dilapidated buildings and engaging community participation. Jennifer Lawson, President and CEO of KAB, stated, "With over 300,000 dedicated volunteers actively participating in 2023 – removing 10,714,210 pounds of litter, cleaning 1,947 miles of waterways, and planting 6,257 trees – the impact is evident." This event is financially supported locally by a Tennessee Department of Transportation (TDOT) Litter Grant that is provided to Tennessee counties to fund litter cleanups.

Tennessee spends over \$23 million each year to clean up litter. The U.S. spends over \$11.5 billion. Yet, our communities continue to spill over with trash. Many people who litter do so because they have seen parents or friends discard trash in this manner. Others who litter will do so because they do not want to wait until a trash can is available. Others who litter are, "... making sure they are giving someone a job." This excuse is lame because most people who clean up litter are unpaid volunteers, including county inmates. There are not enough litter crews across Tennessee or the U.S. to keep up with all the litter that can be found in our communities.

Seventy percent of all litter is unintentional. Thirty percent is intentional – discarded improperly on purpose. The most intentionally littered items are cigarette butts. Other littered items include beverage containers and packaging from food. Unintentional litter includes broken car parts, tires and trash that blows out of or off of vehicles. Litter discourages tourism and decreases the revenue from tourism that is used to improve our communities. Litter contributes to a drop in property values. The more litter you see – the more litter you will see. Call a friend, take a walk and pick up litter! The time you spend volunteering in your community immensely improves life for all of us.

Returning to earth after several orbital circles in outer space, a Russian cosmonaut proudly boasted, "I looked everywhere, but I didn't see God." That statement made me wonder what evidence would have been acceptable to him to prove that there is a God. Paul once wrote, "For since the creation of the world God's invisible qualities - His eternal power and divine nature - have been clearly seen." The eye, our "window to the world," seems to be a very special part of God's creation. But before the eye was formed, in His unfathomable wisdom a process was set in motion: "Let there be light!" He ordered. For us to see anything light must be reflected off of an object to form a "picture" or the eye is useless. Before God created our eyes He prepared a special place for them: He formed the bones of the skull to give them a safe place to do their work. He then fashioned our eyelids to keep out dirt and dust and made eyebrows to keep glaring light from damaging them. Finally He developed a lubricating process to keep our eyes moist and clean by causing tears to flow. Finally, there is the cornea. It allows rays of light to pass through the iris and form a scene in our brain. And here the process becomes complete: Our brain takes what we see and enables us to make sense of God's creation, love and salvation through His word. "Seeing" God, however, takes more than the eye. "If you search for Me with all your heart, you'll find Me."

PERCEIVED VALUE:

A customer asked a contractor friend of mine how much it would cost to do this project.

My friend gave him a proposal: \$4500

The customer responded: That's seems really high.

My friend asked: What do you think is a reasonable price for this job?

The customer answered: \$2500 maximum

My friend responded: Ok, then I invite you to do it yourself.

The customer answered: I don't know how to.

My friend responded: Alright, then how about for \$2500 I'll teach you how to. So besides saving you \$2000, you'll learn valuable skills that will benefit you in the future.

The customer answered: Sounds good! Let's do it!

My friend responded: Great! To get started, you are going to need some tools. You will need a chop saw, table saw, cordless drill, bit set, router, skill saw, jig saw, tool belt, hammer, etc..

The customer answered: But I don't have any of those tools and I can't justify buying all of these for one job.

My friend responded: Ok. Well then for an additional \$300 I can rent my tools to you to use for this project.

The customer answered: Okay. That's fair.

My friend responded: Great! We will start the project on Monday.

The customer answered: I work Monday through Friday. I'm only available on the weekends.

My friend responded: If you want to learn from me then you will need to work when I work. This project will take 3 days so you will need to take 3 days off work.

The customer answered: That means I'm going to have to sacrifice my pay for 3 days or use my vacation time!

My friend responded: That's true. Remember, when you do a job yourself you need to account for unproductive factors.

The customer answered: What do you mean by that?

My friend responded: Doing a job completely from start to finish includes time spent to plan the project, pick up materials, travel time, gas, set up time, clean up, and waste disposal amongst other things. That's all in addition to the actual project itself. And speaking of materials, that's where we will start on Monday so I need you to meet me at the lumberyard at 6:00am.

The customer answered: At 6am?!! My work day doesn't usually start until 8am!

My friend responded: Well then you're in luck! My plan is to start on the deck build by 8am. But to do so we have to start at 6am to get materials picked up, loaded and delivered to your job site.

The customer answered: You know, I'm realizing that a lot more goes in to a job than what a customer sees in the finished project. Your proposal of \$4500 is very reasonable. I would like you to handle the project.

CONCLUSION:

When you pay for a job, especially a custom job, (whether it's a physical project or digital project) you pay not only for the material and the work to be completed. You also pay for:

If you request a proposal for custom work to be done, please don't disrespect a service provider by trying to get them to lower their prices.

If their proposal exceeds your budget, there's nothing wrong with getting other proposals.

Just remember.. you get what you pay for.

- ➡ SERVICE PROVIDERS: Know your worth and be confident in it.
- ➡ CONSUMERS: Recognize their worth and be respectful of it.

Helping Hands of Putnam County

Services We Provide:

We are a nonprofit organization that provides emergency assistance to individuals and families facing poverty or crisis. Our services include food, utilities, medical expenses, rent, and gas vouchers for out-of-county medical appointments. We are committed to supporting those in need and helping them overcome challenges.

We Appreciate Your Support and Donations!

Volunteers Needed
Volunteers Needed

Interested in volunteering in the office or helping to unload food trucks? Please call us. Office volunteers must be fully trained and able to commit to weekly hours.

We are open 9am-12pm and 1pm-3pm, Monday through Friday, by appointment only.

ROMANS 8: 1 - 6

Therefore, there is now no condemnation for those who are in Christ Jesus, because through Christ Jesus the law of the Spirit who gives life has set you free from the law of sin and death. For what the law was powerless to do because it was weakened by the flesh, God did by sending his own Son in the likeness of sinful flesh to be a sin offering. And so he condemned sin in the flesh, in order that the righteous requirement of the law might be fully met in us, who do not live according to the flesh but according to the Spirit. Those who live according to the flesh have their minds set on what the flesh desires; but those who live in accordance with the Spirit have their minds set on what the Spirit desires. The mind governed by the flesh is death, but the mind governed by the Spirit is life and peace.
